Re: Sea Meadows Drive Secondary Roads Improvement Project  
Addendum No. 1

This memorandum is to serve as a Contract Addendum to the **SEA MEADOWS DRIVE SECONDARY ROADS IMPROVEMENT** project bid package to be accepted by the Board of County Commissioners on January 17, 2012.

These responses are to be considered as if originally incorporated into the Bid Documents:

**Article 20 of the Project Specifications – Instructions to Bidders requires the successful bidder to provide a performance bond covering 100 percent of the awarded contract amount.**

**Section 4 of the Supplemental Specifications extends the one-year correction period specified in Article 13.07 of the General Conditions to a three-year term.**

**It is clarified that the performance bond for this project remain in full effect for a period of no less than one-year beyond the date of final acceptance. A performance bond, however, will not be required for the remaining two years of the warranty period. During these two years, Contractor shall abide by the correction provisions of the Contract documents and FDOT Specification 338. As the work will not be bonded during the second and third year of the Warranty period, non-compliance with any Owner required request for correction shall result in Contractor waiving future bidding eligibility on any and all County projects for a minimum of six months or until the remedial work has been satisfactorily performed, whichever is longer. Notwithstanding, such loss of eligibility will in no way preclude the right of the County to pursue remediation through any legal or other means deemed appropriate by the Board of County Commissioners.**

I hereby acknowledge receipt of Addendum No. 1:
